MULTIPLE LOAD HANDLER
with Cascade RapidSync™

Features & Benefits:

INCREASE PRODUCTIVITY

Ultra fast fork speed for quicker opening and closing of the forks.

SAVE TIME WITH PERFECT FORK SYNCRONIZATION

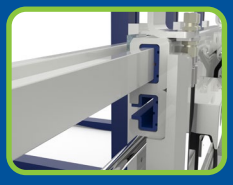

Forks stay in sync during opening and closing eliminating the extra time to re-set forks.

REDUCED MAINTENANCE EXPENSE

Easy to change bolt-on, interchangeable forks and bearings.

REDUCED DOWNTIME FOR MAINTENANCE

Durable, Full-length, lube free UHMW bearings - guaranteed up to 10,000 hours.

The Fastest Multiple Load Handler on the Market.

Whether loading, transporting, storing or staging products, Cascade's Multiple Load Handlers with RapidSync™ moves even faster, allowing you to get even more product out the door quicker. Open and close cycle times are up to 45%* faster than competitive models and 27% faster than our other models.

RAPIDSYNC

For Customers who need Maximum Speed & Perfect Syncronization.

Fast. Accurate. Reliable.

UP TO **45%**
Faster Fork Positioning compared to other brands.

With Cascade RapidSync™ you'll never have to "re-set" your forks. Our patented technology ensures that the forks move precisely where they should be and remain that way... perfectly in sync.

*45% faster than similar sized competitive model when tested at a flow rate of 7 GPM in the Cascade lab.
